What is the LSCGB?
The LSCGB is a vital part of making sure the needs of LSC customers, employees, and other stakeholders are met. Since the LSC is the heart of activity on the CSU campus, a group of students, staff, and faculty is needed to continuously evaluate issues that arise. Members of LSCGB make important recommendations to ensure the Lory Student Center fulfills the commitment to the CSU Community.

LSCGB Mission Statement:
The Lory Student Center Governing Board is committed to developing and reviewing the operation and the use of the Lory Student Center including, but not limited to, regulations affecting students, faculty, staff, alumni and guests using the facility. Such policies will enhance the educational environment of the campus community by supporting activities that promote intellectual, social, cultural, recreational and personal development.

Opportunities:
Hands-on leadership experience, professional development, and community with students, faculty, and staff of Colorado State University.
